

BIENAL DE FOTOGRAFIA  
LAMEGO E VALE DO VAROSA

**LANDSCAPES OF THE WORLD**

INTERNATIONAL GROUP EXHIBITION

## **LANDSCAPES OF THE WORLD**

International Group Exhibition

The Lamego and Vale do Varosa Photography Biennial has hosted collective exhibitions since its first edition at the Salzedas Monastery, featuring photographs from various editions of the MIRA Mobile Prize – a contest for photos captured and edited on mobile devices, organized by the MIRA FORUM Gallery. In the first edition of the Biennial, the theme "The Journey" brought us more or less exotic places from traveling photographers worldwide, while the second edition's theme "The Home" brought the intimacy of the place we inhabit, which confined us during the pandemic.

For the 2024 Biennial, the thematic proposal is "The Landscape," which is not just the setting where human and animal life unfolds. The 50 photographs presented in the cloisters of the Salzedas Monastery testify to the diversity that our planet offers, touching us with the beauty of open or closed spaces, green, black, or white, bright or dark, fertile or arid, torrid or frozen, dense or light.

However, the opportunity to contemplate the beauty of these places is overshadowed by the fear that these landscapes might be at risk and cease to be what they are. The feeling of announced loss accompanies us because we are already witnessing the consequences of climate change resulting from human action: the Anthropocene is evident. In the rush of progress, we do not want these images to become mere memories of a lost world.

*Exhibition from 20th July to 31st October*
